FOR IMMEDIATE RELEASE

Junior League of Summit Hosts Successful Community Leadership Forum

Summit, NJ - The Junior League of Summit (JLS) hosted a well-attended Community Leadership Forum on Tuesday, September 14th at Temple Sinai in Summit. Over 45 invited representatives of local schools, non-profit agencies and organizations attended as well as government officials. Attendees found the event to be an important way to build potential partnerships and make a greater impact in the community.

JLS President, Sara Sykes, began the forum with the announcement of the League's new focus on Children's Health and Wellness. As active president, Sykes will oversee this commitment through the League's many outreach programs this fall such as Kids on the Block, the JLS Diaper Drive and our Thanks for Giving Baskets.

The forum included noted guest speaker, Vicki Clark, who presented the Dr. James Austin's Mission Driven Collaboration Workshop.

Sara Sykes, the President of the Junior League of Summit, said, " The Junior League of Summit was very proud to host the Community Leadership Forum. It was a wonderful opportunity for the members of non-profits in our community to come together and share goals, challenges, and ideas. Vicki Clark did a fantastic job of taking us through the concept of Mission Driven Collaboration, which is such an important concept to the success of our work. At the forum I was also very excited to announce the new focus area for the Junior League of Summit, Children's Health and Wellness."
